This is a beautiful Christmas Pyramid from Müller Kleinkunst Seiffen/Germany- a small family run company that manufactures products for more than 100 years. A characteristic for Müller pyramids is the wooden ring on top that is made into a crown. Fascinating is the combination of woods from the region of Seiffen with exotic woods from other parts of the world. The tier-fences are a registered design element of Müller Kleinkunst and are inspired by the baroque Zwinger Palace in Dresden. The delightful natural colors are charming for the eyes and the figures are a masterpiece in detail. It is turned by a 230 volt electric motor and the electric candles create a unique festive atmosphere. An extraordinary piece of work you will enjoy for many years.
